

WHAT IS CLAIMED IS:

1. A display system comprising:
two side panels and
a shelf;
wherein the shelf comprises a flexible shelf panel and two shelf poles attached to the shelf panel;
the ends of the two shelf poles are attached to the side panels; and
the two shelf poles are offset vertically and horizontally from each other.
2. The display system of claim 1 wherein the shelf panel consists of fabric.
3. The display system of claim 2 wherein the shelf panel is attached to the two shelf poles by two sheathes.
4. The display system of claim 1 wherein the length of the two shelf poles is variable.
5. A display system comprising:
two side panels;
a plurality of shelves;
a support pole attached to the two side panels;
wherein each shelf comprises a flexible shelf panel and two shelf poles attached to the shelf panel;
the ends of the two shelf poles are attached to the two side panels; and
the two shelf poles are offset vertically and horizontally from each other.

6. The display system of claim 5 wherein the shelf panel consists of fabric.
7. The display system of claim 5 wherein the shelf panel consists of leather.
8. The display system of claim 5 wherein the shelf panel is attached to the two shelf poles by two sheathes.
9. The display system of claim 5 wherein the length of the two shelf poles is variable.
10. The display system of claim 5 wherein one of the two shelf poles is inserted into holes in the two side panels and the other shelf pole is inserted into slots in the two side panels.
11. The display system of claim 5 wherein the two side panels are wider at the bottom than at the top.
12. The display system of claim 5 further comprising a plurality of support poles attached to the two side panels.
13. The display system of claim 5 wherein the height of at least one of the shelves is adjustable.
